EDUCATIONS

Year	Degree	Institute	CGPA/MARKS
Aug 2023 - Jun 2027	Bachelor of Technology	Anurag University	8.79
Apr 2022 - May 2023	12th (MPC) CBSE	Kendriya Vidyalaya Tirumalagiri	8.3
Apr 2020 - May 2021	10th CBSE	Kendriya Vidyalaya Tirumalagiri	9.3

WORK EXPERIENCES

Technical Team Lead Sep 2025 - Present
THINKCLOUD – Anurag University Hyderabad

- Led a student team in executing cloud computing projects using AWS services and deployment workflows.
- Collaborated with 15+ club members to explore cloud deployment strategies and hands-on AWS learning.
- Organized cloud workshops and technical sessions to improve peer learning and practical cloud exposure.

Technologies / Skills Used : Aws Cloud Modules

Intern Developer | Intern Jul 2025 - Sep 2025
SMARTZY Educations Pvt. Ltd. Hybrid • Hyderabad

- Contributed to frontend development tasks using React and Tailwind CSS during a 2-month internship.
- Enhanced responsive UI components to improve usability and user experience across web applications.
- Collaborated with the development team to optimize interface performance and maintain design consistency.

Technologies / Skills Used : React, Tailwind CSS

Technical Member May 2024 - May 2025
GeeksforGeeks Student Chapter – Anurag University Hyderabad

- Participated in technical events and coding activities to strengthen collaborative problem-solving skills.
- Contributed to chapter initiatives that improved peer learning and student technical engagement.
- Explored development practices and DSA concepts through community discussions and coding sessions

Technologies / Skills Used : C++, Python, OpenCV

PROJECTS

Explainable CNN–Transformer for Speech/Dysarthria Screening

Developer

- Built a hybrid CNN–Transformer model to improve speech-based dysarthria screening and pattern analysis.

Technologies / Tools Used : Python, PyTorch, TensorFlow

Echoes Of Rampage

Game Developer

- Designed and developed a 2D game featuring structured gameplay mechanics and progression systems.

Technologies / Tools Used : GoDot

SkipQ

Individual Project

- Developed a retail queue management platform to reduce customer wait time and improve store workflow.

Technologies / Tools Used : React, SpringBoot

STFT-Based Volcanic Eruption Detection Using Kalman Filtering

Developer

- Applied STFT for time–frequency analysis of seismic signals.

Technologies / Tools Used : MATLAB

SKILLS

Databases :	MySQL, PostgreSQL, MongoDB, Supabase
Frameworks & Libraries :	MERN, Spring Boot, FastAPI
Programming Languages :	Python, C, C++, SQL
Tools & Platforms :	Power BI, Godot 4.x, Git, GitHub, Docker
Soft Skills :	Leadership, Communication, Problem Solving, Critical Thinking, Adaptability, Teamwork, Decision Making
Languages :	English, Hindi, Telugu

AWARDS & ACHIEVEMENTS

- 2nd Place - Tech Hack 4.0 (Power BI Track)
- 3rd Place - Hackatronics (VLSI Domain)
- 2nd Place - Tejas 2K25 Project Expo, ECE Department
- Organized a hackathon with 400+ participants, overseeing event operations and execution
